

ARFRP1 Rabbit Polyclonal Antibody

Catalog #: EAB11711

Host/Isotype	Clonality	Applications	MW (kDa)	Reactivity
Rabbit IgG	Polyclonal	WB	23	Human, Mouse, Rat

Applications Dilutions

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

WB(Western Blotting)

1:500-2000

Product Information

SpecificityARFRP1 Rabbit Polyclonal Antibody detects endogenous levels of ARFRP1 protein.PurificationAffinity purificationConcentration1mg/mlCormatLiquidFormulationIn PBS, pH 7.4, Containing 0.02% sodium azide, 0.5% BSA and 50% Glycerol.ShippingGel PackStorageStore at -20°C least 1 year from the date of shipment. Avoid repeated freeze/thaw cycles.JniProt IDQ13795

Product Description

ARFRP1 (ADP-ribosylation factor related protein 1), also known as ARP or ARL18, is a 201 amino acid membrane-associated GTPase that localizes to the plasma membrane and the Golgi apparatus and is related to the ARF family of regulatory proteins. Expressed in a variety of tissues, ARFRP1 interacts with SYS1 and is thought to be involved in plasma membrane-related signaling events. ARFRP1 exists as multiple alternatively spliced isoforms and is encoded by a gene which maps to a gene cluster on chromosome 20 that is commonly overexpressed in tumors, suggesting a role for ARFRP1 in carcinogenesis.
